# CONTENTS

Our customers tell us that they choose Aristocrat because of the quality and durability of our offerings and the longevity of our company. Meticulous care is taken in each step of the manufacturing process to ensure everything leaving the factory meets not only our high standards but yours too. There's a reason why we offer the strongest warranty in the industry, including 12 years on our Craft-Bilt Northport fabrics and a lifetime transferable warranty on frames.

# Retractable Awnings | *A new generation of shade*

Decks and patios are the perfect place to spend quality time with your family, entertain your friends, or just relax on warm sunny days. Under the cool shade of an Aristocrat Awning, you can continue to enjoy the outdoors, even on the hottest days of summer. Relax outside where an awning will protect you from the damaging rays of the sun.

Our awnings also add beauty and value to your home. With multiple models, features, options, custom sizes, and over 100 exclusive designer fabrics, you can select the perfect awning to complement your home while fitting your individual needs, style, and budget.

## *Did you know that awnings:*

- Reduce indoor temperature by as much as 15 degrees
- Cut cooling costs by as much as 52%
- Block harmful UV rays that cause skin cancer by as much as 94%
- Reduce solar heat gain from windows during direct sunlight by as much as 70%
- Protect your furnishings and artwork from fading
- Protect wood decks from fading and cracking

*"We had an Aristocrat Awning at our last house and wanted another one for our new home. We always say to not mess with success. With how much we loved the first one, buying the second was an easy decision. Thank you for a quality product."* Mr. & Mrs. Sagan, PA

# Cottage Awnings | *Enhance your home's appearance with cottage awnings or the sleek elegance of drop shades*

Window and porch awnings protect your home's valuable furnishings from fading. They also substantially lower air conditioning costs by blocking the summer sun from heating your window glass and bringing that heat inside your home. Choose from a variety of models, sizes, and over 100 exclusive fabrics to add a distinctive look to your home.

## Window Awnings:

Drop-arm window awnings allow you to control the amount of sunlight and heat entering your home. They can be adjusted to any position, blocking sun glare whether it's in the morning, afternoon, or early evening.

## Drop Shades:

An economical addition to your favorite outdoor areas, drop shades add protection from the sun and create additional privacy on your porch, deck, or patio. They can retract into a sleek cassette when not in use.

# Canopies | *Create your own tranquil oasis: cool, covered, and comfortable*

Aristocrat's innovative canopy system offers vacation-like comfort in the convenience of your own backyard. Our freestanding canopy can be placed almost anywhere, offering a secluded spot to enjoy the outdoors.

When mounted to your home, they provide added sun protection where you sit and relax most often. The under-pergola canopy system can be installed beneath existing pergolas or structures to provide additional shade. Canopies are a flexible shading solution for any outdoor living space - on your deck or patio, in the yard, or by the pool.

## ***Did you know:***

The added shade will provide comfort and protect your friends and family by blocking up to 94% of the UV rays that can lead to skin cancer.

- The addition of decorative rafters transforms a canopy into a pergola canopy
- Choose from over 100 exclusive designer fabrics
- Side curtains or solar shades can be added on any or all sides for additional privacy and sun protection

# Solar Shades |

*Control the sun's heat before it hits your windows*

Glass windows and doors allow you to enjoy your natural surroundings, but they also let in heat from the sun and increase your cooling costs. Solar shades improve the efficiency of your windows and doors by filtering out the sun's heat before it reaches the glass. They also add privacy while preserving your beautiful view of the outdoors.

Our exterior solar shades are custom manufactured to cover your windows and doors with a variety of cassette and guide options, sizes, colors, and exclusive designer fabrics to keep the sun out!

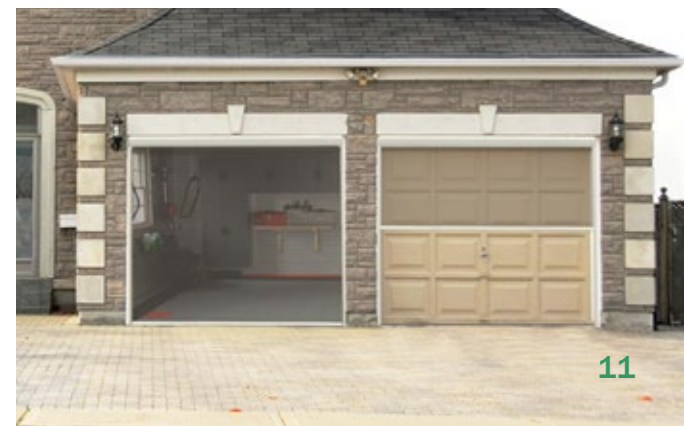

*“My solar shades are absolutely perfect for my west-facing deck. They keep the afternoon heat and sun to a minimum. I chose a color that even matches the siding and trim of my house. I love them.”*

Mr. Krentz, WI

# Motorized Screens | *Transformable spaces go from open porch, patio, or garage to a screen room in seconds*

Our solar shades' captured edge technology creates a completely closed retractable screen room, keeping out unwanted pests while dining or simply enjoying the outdoors. With the touch of a button, transform your porch, patio, or garage into a screen room. When not in use, the screens retract inside a protective cassette, opening up your space to the outdoors. With motorized screens, you can have the best of both worlds at the touch of a button. Enjoy an open porch or garage when you want one and a screen room when you need one.

# Tension Shades | *Convert your outdoor living space into a shady retreat*

Reclaim the outdoors from the sweltering sun with the TS and TS2. They add a contemporary look and feel to the traditional awning and with some of the largest fabric spans, are engineered to cover spacious decks, patios, pergolas, or glass roofs. Tension shades are an efficient way to enjoy summer days without the heat and harmful rays of the sun.

*"It looks great and really cools our deck when extended."* Mr. Jorgenson, IL

With the push of a button, fabric glides smoothly along the rigid framework. When shade is no longer needed, the fabric retracts into its cassette, where it is protected from the elements.

Custom manufactured with over 100 exclusive designer fabric options, it's easy to find a style that suits your home.

With two Aristocrat Tension Shade Systems to choose from, pick the model that best fits your needs.

## TS

- Must be mounted above or below an existing structure
- Perfect for adding shade to pergolas, glass roofs, or alcoves

## TS2

- Can be mounted above an existing structure or to a wall or roof with a leg support frame
- Horizontal shades or solar shades can be mounted to the TS2 leg system

# Horizontal Shades | *Add privacy and sun protection from the side*

Most shade products protect you from overhead sun, but the morning and evening sun can be just as harsh. Horizontal shades are pulled sideways, so you and your family can enjoy morning coffee, lunch, or dinner without squinting from the glare of the sun. With semi-transparent screen fabric or non-transparent, solution-dyed acrylic, add privacy to your outdoor areas or obscure less than perfect views. Simply pull the shade from its side cassette and hook it onto either a wall or floor-mounted post.

Horizontal shades have numerous applications. They can be mounted to your existing structure, a canopy, tension shade, or wall-mounted to add side shade under your patio awning. The easy-pull system and roller wheel enables the shade to easily glide across the ground. A safety brake will stop the shade from rolling up if it is accidentally released, preventing damage to the fabric.

# Screen Rooms, Patio Covers, & Carports

*Rediscover all that is wonderful about outdoor living*

Breezy screen rooms make it easy to enjoy the serenity of the outdoors without worrying about unpredictable weather or the nuisance of insects. They add comfortable living space to relax and enjoy the fresh air. Patio covers shield you from harsh sun and rain and help protect your furniture from fading and weather damage. A less expensive alternative to a garage addition, carports offer protection from sun, rain, and snow as you load and unload your vehicle in inclement weather.

# Aluminum & Glass Railing |

*Increase the beauty and elegance  
of your home's exterior*

Add the perfect complement to your home with Aristocrat Aluminum and Glass Railing. When quality and durability matter, these fully engineered structural railings are a stylish addition for your primary or vacation home. Beautifully crafted and maintenance-free, our railings are custom built on-site to provide a seamless blend with the architecture of your home.

**Options include:** aluminum pickets, framed glass, or frameless glass to enjoy views with less obstructions. Our railings offer an unparalleled level of safety and security.

# Waterproof Aluminum Decking | *Put on the last deck you'll ever own!*

Aristocrat's revolutionary, maintenance-free aluminum decking is unlike any other product on the market. Made of extruded aluminum, our deck boards will outlast any other material available, including wood, plastic, vinyl, or composite! The boards join together under a pressure-locked seal. In the unlikely event that any moisture gets past the pressure lock, there's a built-in continuous gutter in each board to carry it away so under the deck stays dry and clean. Aluminum is also cool to the touch and less likely than other materials to hold heat from direct sunlight. Never paint, stain, waterproof, or fix warped, rotting boards or popping nails again. It's the deck that lasts for decades!

At Aristocrat, we pride ourselves on being a little different from other shade product companies, and those differences are important. Our products feature options and choices that allow you to customize your shade product.

## ESTATE FRAME OPTIONS

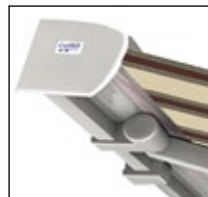

Our most popular awning, the Estate, can come as a base model; with a tray; with a hood and tray; or with a back, hood, and tray.

# WATERPROOF ALUMINUM DECKING • ALUMINUM & GLASS RAILING

## WATERPROOF ALUMINUM DECKING

**NO** • Painting • Staining • Waterproofing • Splintering • Cracking  
• Rotting • Warping • Decaying • Knot Holes • Bonding and Glue Issues

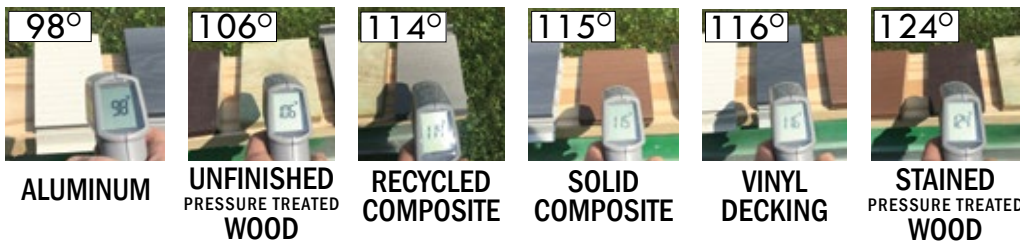

Extruded aluminum OUTLASTS wood, vinyl, or composite decks or any vinyl membrane.

Aluminum decks look great for decades.

**NON-COMBUSTIBLE** - Aluminum will NOT ignite, burn, or degrade from UV rays

**COOL TO THE TOUCH** - Aluminum won't hold heat like other materials

During a test performed at 86° in direct sunlight, decking surface temperature registered:

<b>Colors</b>	<div> <div>Ivory</div> <div>Fashion Gray</div> <div>Antique Bronze</div> </div>
<b>Finish</b>	NON-SKID • Heavy-duty powder-coat finish with embedded texture for non-skid performance
<b>Materials</b>	Maintenance-free, high strength extruded aluminum. Coated with durable baked-on finish - eliminates painting and staining
<b>Fasteners</b>	Hidden fasteners eliminate worry about nails or screws popping
<b>Deck Boards</b>	<p>Join together under a pressure lock to form a gapless floor with waterproof* joints</p> <p>Built-in continuous gutter system in each board for water management</p>  <p><small>*Decking should not be used as the sole roofing solution over enclosed living space, consult installation guide</small></p>

## ALUMINUM & GLASS RAILING

TRADITIONAL PICKET

FRAMED GLASS

FRAMELESS GLASS

<b>Sizes</b>	Post sizes: 2¼", 3", 5½" square Picket widths: ⅝" or 1½"
<b>Colors</b>	<div> <div>White</div> <div>Desert Sand</div> <div>Earthstone</div> <div>Black</div> </div>
<b>Picket &amp; Glass Panels</b>	Fully engineered structural railing in your choice of color-matched aluminum pickets or tempered glass panels
<b>Top Rails</b>	<p>Unique crossover designed handrails run over the posts for a straighter, stronger railing with fewer joints than other systems</p> <p>Single or double top rails available</p>
<b>Glass Panels</b>	Clear, tinted, or frosted ½" thick tempered glass panels. Heavy wall glass channel with deep pocket contains the glass
<b>Lights</b>	<p>LED lighting available for added ambiance, safety, and security</p> 
<b>A.D.A.</b>	Railing can be built A.D.A. compliant

# SCREEN ROOMS • PATIO COVERS • CARPORTS

**SCREEN ROOMS**

**PATIO COVERS**

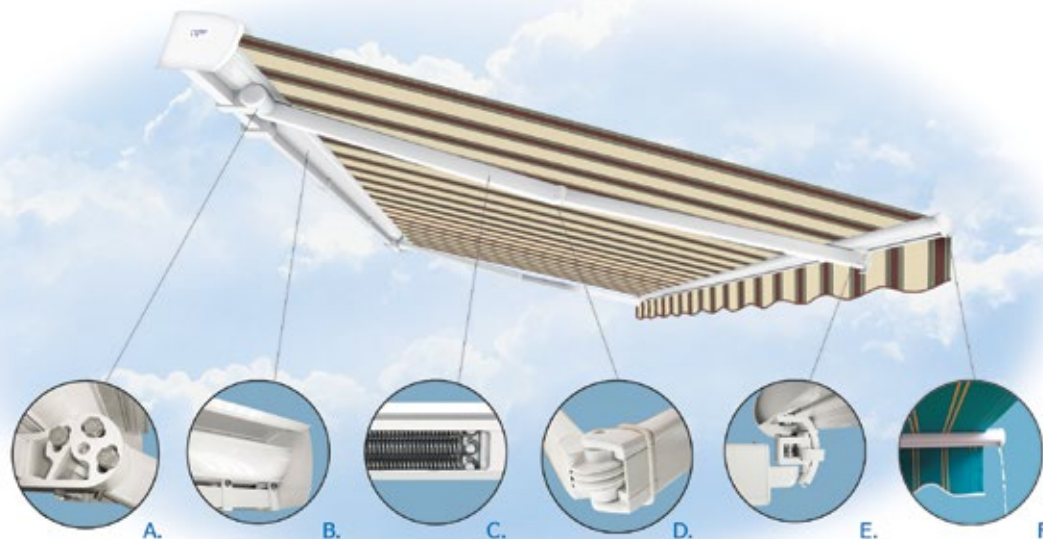

**CARPORTS**

<b>Frames</b>	Heavy-duty aluminum with maintenance-free finish that never needs painting
